

### PMG Graduate Leadership Program Coding Challenge

Please find PMG Coding challenge here:

<https://github.com/AgencyPMG/ProgrammingChallenges>

Inside the "csv-combiner" folder there are instructions on how to complete the Challenge. Make sure to read the instruction in its entirety. There are no trick questions here. Just a simple programming challenge.

As a reminder, this is an opportunity to showcase your skills as you will have the chance to discuss why you made the coding decisions you did with the team during your interview

Good Luck!
